What is the Regional Event about?

Childnet are always looking for ways to improve the programme and make it more youth led. A common thread we hear from the Digital Leaders on the programme is how much they want to meet other teams in other schools. As well as providing this networking opportunity for the young people, we wanted to give them a forum to share ideas, access exclusive training and celebrate all their achievements so far.

Benefits for your school

- Give your Digital Leaders the opportunity to meet with other Digital Leaders
- Celebrate the achievements of your team of Digital Leaders and showcase the impact they have
- Profile your school's involvement in the Childnet Digital Leaders Programme on a regional level
- Be inspired to continue making an impact through innovation
- Network with other regional school staff to take away inspiring ways to promote online safety

Benefits for Digital Leaders

- Represent your school at a high profile event featuring industry experts
- Meet other Digital Leaders from across the UK - share experiences and support one another
- Showcase how you help to make the internet a safer and happier place for young people

**"It was one of the most awesome school events I have
ever had"**
